Assistive Technology for Recreation

Assistive Technology for Recreation helps people with motor, sensory, cognitive, or learning disabilities participate in activities that they enjoy doing during their leisure time.

Board and Card Games:
Large print cards, card holder, tactile adapted board games, large dominoes, magnetic board games, talking dice

Television, video, and movies: captioning, audio description services, personal amplification, voice controlled remote

Outdoor Recreation:
adapted fishing, hunting, golf, gardening equipment, walking sticks, switch adapted camera

Reading and writing:
audiobooks, refreshable Braille display, speech to text, weighted writing utensil

Sports: beeper or jingle ball, bowling ramp, adapted billiards, adapted bicycling, adapted surfing

Music and Art: adapted instruments, large grip paint brushes and other art supplies, drum circle, switch activated tools

Assistive Technology Resource Centers of Hawai'i (ATRC) is a nonprofit organization that provides information, resources, demonstrations, and device loans to help people make informed decisions and select the AT that best meets their needs. We do not sell or endorse any particular products.
